Availability : A copy of this document is available for reference at the Communication Centre, Department of Civil Aviation, No.64, Galle Road, Colombo 3.

Concept

Certificate of Airworthiness for Export is not a flight Authority. It is a document attesting to the Airworthiness Status of an Aeronautical Product.

A Certificate of Airworthiness for Export is issued by the Director-General of Civil Aviation on the request of the Exporter specifying the importing countries special requirements in respect of the airworthiness standard of the aircraft

The relevant procedures for the issue of C of A for Export are listed below;

1. The exporter on behalf of the importer should formally request the Sri Lanka Director-General of Civil Aviation certificate of Airworthiness for export
2. The exporter should furnish to the Director General Of Civil Aviation the Airworthiness Requirements of the importing country
3. The Exporter should furnish the following documents;
 - a. The applicable Type Certificate with Data Sheet approved and validated in respect of the aircraft.
 - b. List of all major modifications / repairs carried out along with the approvals.
 - c. List of all Airworthiness Directives applicable to the aircraft with compliance certificates and dates.
 - d. Certified history of all hard life components
 - e. Details of any life development programmes
 - f. Back to birth aircraft records

Subsequent to an adequate review of the above the Director General Of Civil Aviation will issue the Certificate of Airworthiness for Export identifying that the

Aircraft meets the importing country's requirements

Or

The aircraft meets the requirements of the Importing Country and list deviations as applicable.

Lal Liyanaarachchi

Director-General of Civil Aviation
